
This Is . . .	This is a summary of the 95 th TAC meeting and related meetings held at St. Petersburg, FL February 25, 26, & 27, 2008.
Attendance & Participation	Here are the attendance and participation statistics for the meeting: <ul style="list-style-type: none">• 104 Total Attendance including Project Team meetings, Project Development Committee meetings, and TAC meeting.• 39 Member companies represented• 4 Potential Members<ul style="list-style-type: none">– Ceradyne – Peter Goldstein– Lubrizol – Sol Zittner– Plymouth Tube – Ed Blessman– Saint Gobain Ceramics – Ronald Hamacher & Doug Mrotek• 64 Forum Questions submitted and discussed
Special Presentation	James Keiser/Oak Ridge National Laboratory gave a presentation on Alumina-Forming Austenitics: A New Class of Heat-Resistant Stainless Steels.
Elastomer Training	An Elastomer Training Program was held all day on Monday. DuPont Performance Elastomers presented the program with Russ Schnell as the lead instructor. Thirty people attended.
Funding for 4 Projects Approved	TAC and the BOD approved four projects. <ul style="list-style-type: none">• FRP Inspector Training Program (na)• Terahertz Imaging (nf)• Rouging Phase 2 (nn)• Project 184-07 – RBI for Polymers (Request for additional funding).
Four New Project Teams Formed	These four new project teams formed during TAC 95. <ul style="list-style-type: none">• RBI for Lined Storage Tanks (no)• Failure Analysis of Polymer Based Materials (np)• Accelerated Testing of Polymer Based Materials (nq)• An ad-hoc team formed inside the Pneumatic Leak Testing of Heat Exchanger Tubing team to see if we have the expertise and can answer the team's needs without going to an external organization.

Future Meetings

Here are the MTI meetings scheduled to date.

- EuroTAC May 7-8, 2008, Brussels Airport Holiday Inn
 - TAC 96 June 16-19, 2008, Coast Plaza Hotel, Vancouver, BC
 - SinoTAC September 23-26, 2008, Shanghai
 - TAC 97 October 20-23, 2008, Seelbach Hilton, Louisville KY
 - TAC 98 February 23-26, 2009, Omni, Jacksonville, FL
 - TAC 99 June 8-11, 2009, Millennium, St. Louis, MO
-

Project Team Meetings

Here are the project teams and Project Development Committee meetings held during TAC 95. Project numbers are in parentheses with alphabetic (ab) denoting potential projects and numerical (113-07) denoting funded projects.

- FRP Inspector Training Program—China (na)
 - Cost Control in Equipment Design (ng)
 - Elastomer Training (mx)
 - Thin Film Insulators (178-06)
 - Pneumatic Leak Testing of Heat Exchanger Tubing (nl)
 - Terahertz Imaging (nf)
 - Guide for the Repair & Modification of FRP Equipment (165-05)
 - Guide for the Repair & Modification of Lined Equipment (166-05)
 - MS-8 Organic Solvents (168-05)
 - Reliability Equipment Manual for Fixed Equipment (nd)
 - Advanced Metal Dusting Resistant Alloy (179-07)
 - Rouging (167-05) and Rouging 2 (nn)
 - Measuring Hydriding in Ti (180-07) & Hydride Formation in Ti (mp)
 - NDE Statistics (153-03)
 - Statistical Analysis of NDE Data 2 (nm)
 - RBI for Polymers (184-07)
 - Ceramic Fiber Insulation Properties (182-07)
-

Project Development Committee Meetings

Project Development Committees (PDC) match members' needs with new and existing technologies to identify new potential projects. These 5 PDC's met during TAC 95.

- Integrity & Condition Assessment PDC
 - New Materials—Metals PDC
 - New Materials—Polymers PDC
 - New Materials—Ceramics PDC
 - Knowledge Management PDC
-
