

Metals PDC Meeting Agenda – AmeriTAC 131

Topic	Leader	Time (min)
Introductions	M.J.L. Oestergaard	5
Review Meeting Agenda	M.J.L. Oestergaard	5
Project Update from EuroTAC	M.J.L. Oestergaard	5
Updates since AmeriTAC 130: • #356 – Fracture Toughness and Weldability of High Temperature Alloys • #357 – Corrosion in Bio-oils • #358 – High Temperature, Low Chloride Corrosion • #360 – Loading Breakaway Systems	M.J.L. Oestergaard	10
Revisit previous discussions: • Survey “strategies used for replacement of Cat Tubes in reformers” – Jose Ramirez • Survey “implications of potential EPA regulations on chromium loss from ethylene tubes during operation” – Jose Ramirez • “Use of noncontact conductivity sensors to monitor processes for corrosion” - Teodor Leoveanu		15
Old Project Concepts: • #290 – CC Susceptibility of DSS • #313 – NH3 (Anhydrous) SCC Update	R. Freed	10
Other ideas/Challenges	All	5
Path Forward	All	5
